Girl Meets 2 Worlds: Clash of the Werewolves

Bella has come back from her trip to Belgium and is happy in her relationship with Jacob. But the appearance of a villainous group in Forks throws a wrench into the love between the two and the other residents of Forks and La Push. In the meantime, a new Quileute has phased into a werewolf, forcing everyone to help him cope with the new outlook in life he has been given. Another group is discovered who will have some special powers themselves. And if that wasn't bad enough, it soon becomes apparent that the Uley pack isn't the only one in La Push. New and unexpected friendships will be forged, people will become enemies, and hearts will be broken.
